Objective

Motivated and determined servant leader looking to leverage my work ethic, diverse experience, and education. Seeking a junior/entry-level software developer position.

Education

| Bachelor of Business Administration |
| University of North Texas, Denton, Texas |
| Zero To Master Academy |

Graduation: December 2020
GPA: 3.4

Projects

RoboFriends

- Developed an application using React, HTML, CSS, JavaScript, and Terminal that retrieves and returns an array of objects depending on what is typed into the search bar.
- Implemented a map loop to properly display the card list which has an image and name of a different robot.
- Implemented HTML and CSS properties to give the application nice visuals and a user-friendly experience.

Background Generator

- Developed an application using React, HTML, CSS, JavaScript, APIs, and Terminal which returns a box around the face of any image when given the image URL.
- Implemented conditionals to navigate onto different pages which perform different functions.
- Used APIs from Clarify to achieve the face recognition function

Zero To Mastery:

- Studied data structures (arrays, objects, stacks, queues) and algorithms.
 - Grasped variables, types, comparison, conditionals, operators, functions, and loops.
 - Learned the most necessary HTML and CSS properties required to develop a web page.
 - Gained experience using React, JavaScript, Bootstrap, NPM, API, Visual Studio, Sublime Text, Git, and the Terminal on Windows, Linux, and macOS.
-

Professional Experience

Courier

FedEx Express

March 2021 – Present
Fort Worth, Texas

- Utilized teamwork and time management to successfully finish tasks on time by communicating with colleagues to make projects run smoothly and effectively.
- Navigated using the E-star application, using critical thinking and organizational skills to arrange routes and distribute freight most efficiently.
- Handled vehicles safely and efficiently to distribute clients' packages, delivering to an average of 100 clients per shift.

Sales Associate

Metro PCS

August 2017 – May 2018
Fort Worth, Texas

- Utilized communication skills to sell hardware and data plans to clients by getting to know the client and meet their standards and needs. Assisted 50 clients per shift.
- Promoted the business by handing out flyers and reminding clients about specials and promotions/offers that could be of interest.
- Worked at the register, and used organizational and math skills to handle cash and credit card transactions.
